[2] Energy and Climate Change (EC)

[2.4] Electricity usage per year (in kilo watt hour)

Penggunaan listrik tahun 2017

Electricity consumption (kWh) of Universitas Sebelas Maret campus in 2016-2017, Indonesia

Description:

In 2017, the lowest use of Electricity is in January and the higher use of electricity is in August. Figure above shows the use of electricity during a year in 2017. It shows that electricity consumption is basically influenced by campus activity during one year, where the academic activity always starts in February and ends in August. By 2017, total electricity usage was found to be decreased from 2016. This indicates that some Green Campus efforts and policy has influenced reduced electricity usage. Total electricity consumption in 2017 is 5,812,674.53 KWH.
