[6] Education (ED)

[6.2] Total number of courses/modules offered

Total number of courses offeres in 2017-2019 (Universitas Sebelas Maret, Indonesia)

Description:

Total number of courses offered in 2019 = 10369 courses/modules distributed in 153 department. Universitas Sebelas Maret (UNS) as one of a big university in Indonesia, has vision of becoming the Center of excellence in Technology and Science in International levels based on National Culture value. The roles of university have been expressed in the three roles called TRIDARMA PT, which means the role for developing education, for developing research and for community services. Through the Tridarma PT, UNS wishes for becoming learning nad research university. Related to the role of Education, UNS encourages student dependency in having knowledge, skills and atttute for National as well International competition. Therefore, learning process in UNS has been expressed in development of curriculum of the study programs, silabus and courseworks. Number of courseworks has been increased every year. In 2017, number of courseworks related to environment and sustainability was 1127 out of 10.075. In 2018, number of courseworks related to environment and sustainability was 1173 out of 10.225 ns in 2019 has reached to 1317 courseworks out of 10369 courseworks. This is inline with increasing number of study programs in UNS, which indicates increasing demand of education and knowledge development.
